Professional Summary

Proactive Software Developer skilled in software design, development, and debugging of responsive web pages and software solutions using Angular and React frameworks. Experienced with JavaScript, TypeScript, SQL databases, version control, and RESTful API integration. Quick learner with a strong commitment to integrity, teamwork, and continuous improvement.

Work History

Associate Software Engineer, Group10 Technologies

June 2025 - Aug 2025

- Led front-end development as the sole UI developer for 3 Angular projects and supported 2 additional ones, improving delivery efficiency by 25%.
- Debugged and fixed issues under supervision, reducing post-release defects by 40%.
- Ensured adherence to quality standards, performance optimization, and accessibility across browsers.
- Collaborated using Git for version control and maintained ethical, well-documented coding practices.

Software Developer Trainee, Group10 Technologies

Nov 2024 - May 2025

- Assisted in analyzing user requirements and integrating 15+ RESTful APIs.
- Optimized SQL queries, improving data reliability by 30%.
- Supported development projects with guidance and team collaboration.

Web developer, Freelancing

Aug 2023 - Feb 2024

- Delivered 5+ client websites using HTML, CSS, JavaScript, and MySQL by managing the full development cycle from user requirement analysis to design.”
- “Ensured high-quality, ethical, and user-centered solutions throughout development and deployment.

Intern, Indium Software

Feb 2023 - May 2023

- Gained practical experience in Java, Python, SQL, and web technologies through software development, debugging, and two Capstone projects, while strengthening problem solving and learning agility.

Skills

- Programming Languages: Java, Python, JavaScript (ES6+), TypeScript
- Frontend: Angular 19, ReactJS, HTML5, CSS3, Bootstrap
- Backend & Database: MySQL, PostgreSQL, PHP, Low-code, RESTful APIs
- Testing: Jasmine, Karma, Jest, Unit Testing
- Tools & Others: Git, GitHub, Figma, Prompt Engineering
- Soft Skills: Problem Solving, Team Collaboration, Learning Agility, Adaptability

Achievements

- Co-invented a patented voice-based exam app for visually challenged students as part of a 4-member team, recognized by the Chief Minister of Tamil Nadu (Patent No: 202241035046).
- Delivered innovative, user-centered software projects demonstrating strong technical and collaborative skills.

Certifications

- **Google Prompting Essentials** - Learned effective prompting and AI applications for productivity and data analysis.
- **Meta Advanced React** - Hands-on React projects using advanced hooks, Context, and modern patterns.

Education

B.E CSE, Meenakshi Sundararajan Engineering College, Chennai

Aug 2019 - May 2023

- 9.02 CGPA - First class with distinction.
